Forecast for Saturday 05 Oct 2024

Weather: A few clear spells but generally rather cloudy through the early hours, the cloud perhaps thick enough to give a few spots of rain across the north. The cloud soon breaks on Saturday morning to leave a dry and bright day with some good spells of sunshine developing, especially through the afternoon although this may be rather hazy at times due to high cloud. Cloud begins to increase again through the evening with outbreaks of rain reaching western hills towards midnight.

Chance of cloud-free hill tops above 800m: Around 40% at first across southern hills, otherwise close to 100%

Low Cloud and visibility: Occasional or periods of cloud above about 600m across southern hills at first, otherwise little or no cloud below the summits. Away from cloud, visibility very good with panoramic views of surrounding hills, falling to several kilometres in evening rain.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Gusts around 60mph over higher summits and ridges with, especially at first, a significant chill effect.

Forecast for Sunday 06 Oct 2024

Weather: A mostly cloudy day with outbreaks of rain. The rain is expected to become more persistent and occasionally heavy for a time in the afternoon before clearing to clear spells and scattered showers through the late afternoon and evening.

Maximum wind: Southerly or southeasterly 25-30mph, with gusts around 55mph over ridges and summits, decreasing 10-15mph through the afternoon.

Chance of cloud-free hill tops above 800m: Around 40% across northern hills, close to zero through much of the day, before improving, from the west, to 75% through the later afternoon and evening.

Low Cloud and visibility: Periods or persistent cloud above about 450-600m, but cloud more occasional above about 600-750m at times across northern hills and more generally through the late afternoon and evening. Away from cloud visibility good falling to several kilometres in rain, becoming mainly very good through the late afternoon and evening.

Temperature: **Valleys:** Plus 10 or 11 Celsius at dawn rising to plus 15 or 16 Celsius by early afternoon
At 800m: Around plus 7 or 8 Celsius
Freezing level: Above the summits
